ALESSANDRO
MUNGE

ALESSANDRO MUNGE

Blessed with an inquisitive nature and a fundamental drive to connect with people on the purest level, Alessandro Munge combines these traits with more than 20 years of experience in design to create spaces that deeply resonate. It was at a young age, while dreaming up his own creations for his mother's drapery business, that he witnessed the power that design has to provoke profound emotion. Rapidly transcending his teenage sketches to become one of Canada's most sought-after interior designer, Alessandro founded in 1997 award-winning Studio Munge resolute with a desire to reimagine the sector through concept-driven narratives.

“My responsibility is to give unique design solutions that are right and relevant. There is no formula that will force me to do the same thing over and over because in my world I call that insanity.”

As a global design leader and the charismatic principal to a team of over fifty, Alessandro continues to rise and expand his skill set perfecting both design architecture and furniture design while strengthening his ties to a host of top-tier hospitality brands and clients. A select few of his past and current projects include Park Hyatt Hotel & Residences Los Angeles, Park Hyatt Hotel Toronto, Nobu Hotel & Residences Toronto, Rosewood Hotel Georgia Vancouver, JW Marriott parq Vancouver, Hilton Park Plaza Toronto, Canopy by Hilton Toronto, Shangri-La Hotel Shanghai, and Shangri-La Hotel Nanning. - Full list available on request.

“Nothing is more precious than human emotions. And so I thrive in the creation of spaces that people can engage and connect with through their senses... To me, a beautiful piece of furniture is an emotion connector.”
