中式园林的水元素及水在历史文化的记载

CHINESE GARDEN ELEMENTS AND ITS HISTORY IN LITERATURE

园林里面有四大要素，即筑山，理水，植物，建筑，对于园林来讲最重要的环节，不是盖房子，而是筑山，这是非常难的艺术创作，古代的造园家常常被称为山子匠。北方恭王府花园里的滴翠岩为太湖石叠成的宝幢，其设计水平高，砌作技术精。

在这里我们提取观赏石这一重要元素，使用现代的材料及造型将之现代化。并运用钓鱼台的中国红给宾客留下深刻及富代表性的第一印象，使整体空间简约而不简单，在庄重大气的同时让人感到温暖愉悦。

There are four major elements in the garden, namely, rocky mountains, plants, water and architecture, and the most important part for the garden is not building a house, but making a rockery, which is a very difficult artistic creation. In the garden of King Gong's Mansion, the Dicui Rock is a po-foil made of Taihu Lake stone, and its design is so high and its masonry technique is so refined.

Here we extracted the important element of rockery and modernized it with modern materials and shapes. We also use the Chinese red of Diaoyutai to provide arriving guests a pleasant and representative first impression, making the overall space simple and uncomplicated, and making people feel warm and welcomed at the same time.

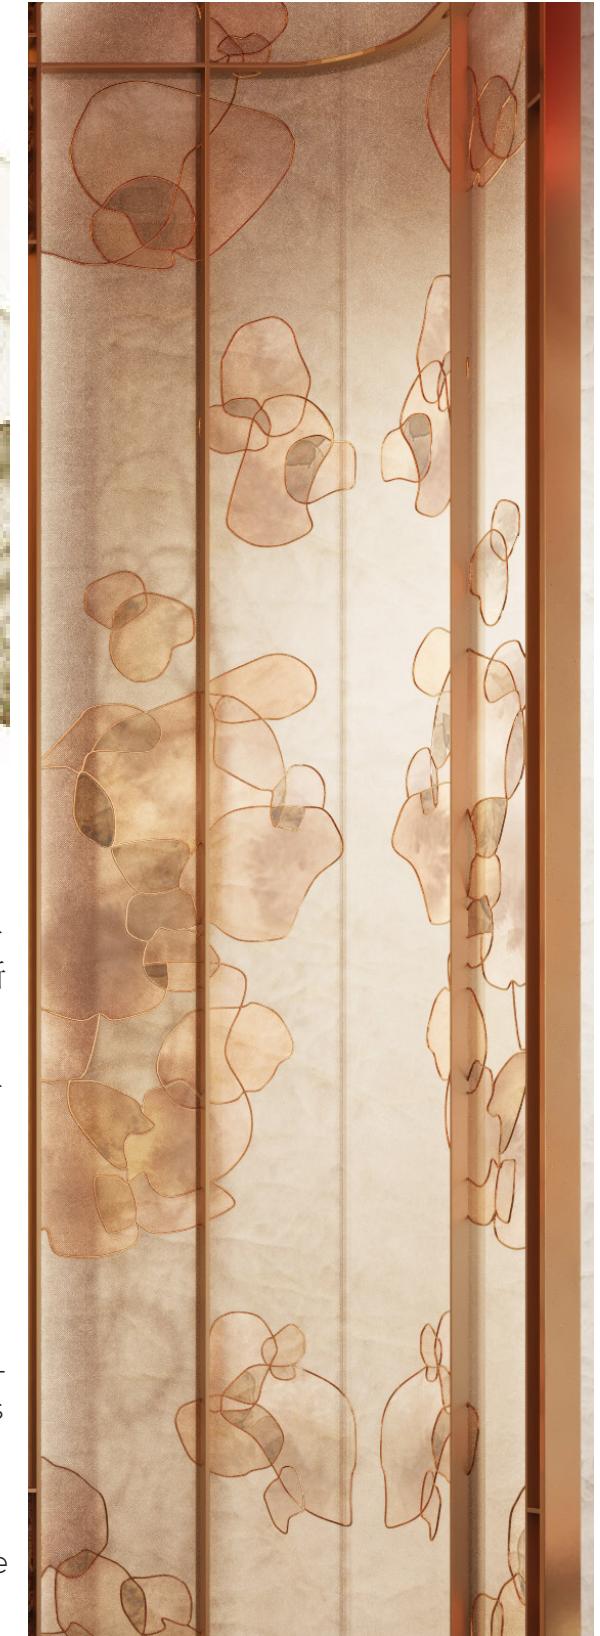

园林池塘的水元素及水在历史文化的记载
GARDEN POND AND WATER IN LITERATURE

水是庭院花园中重要的元素，水，柔静温和，滋养万物，从不争夺，甘于卑下，这正与天道相吻合。青岛钓鱼台酒店一旁的崂山是道教的起源地之一，老子在《道德经》有言：上善若水，水利万物而不争。最善的人好像水一样。水善于滋润万物而不与万物相争，停留在众人都不喜欢的地方，所以最接近于“道”。

Water is an important element in the courtyard garden, Diaoyutai Hotel next to the Laoshan Mountain is one of the origins of Taoism, Lao Tzu in the Tao Te Ching said: "the greatest virtue has the characteristic of water - where benefit flows to many but takes no credit for the good that is done."

Water has the virtue of nourishing all things, it makes all things get its interests, and it does not contradict nor conflict with all things. The ultimate "Tao" is to be as versatile as water.

无论是北方或南方的园林的池塘里，荷花荷叶几乎是常见的水中植物。荷就是象征“百合”是团圆平安的意思。叶子象征生命。宋朝周敦颐《爱莲说》“出淤泥而不染，濯清涟而不妖”写出了莲身处污泥之中，却纤尘不染，不随世俗、洁身自爱和天真自然不显媚态的可贵精神。

在首层空间里，我们运用荷叶的形态作为地面图案的设计启发，与客房层地面设计相互关联。在四周的屏风上，选取了在荷叶上的露珠的概念。荷叶上的露珠，晶莹剔透、随风滚动，似波光潋滟，像洒落在翠玉盘上的珍珠。露珠生命中的每一天是全新的，不断变换着的，“荷叶”也是如此，每一天也在生长。

中国古代著名诗人陆游，王维等也有受到荷叶上的露珠的启发创作出诗词。在这里，我们将之抽象艺术化设计并使用现代的工艺展现在屏风上。

In both Northern and Southern gardens, lotus flowers and leaves are almost the most common plants in water. The lotus is a symbol of “Bai He”, which means reunion and peace. The leaves symbolizes life. In the Song Dynasty, Zhou Dunyi’s “Ode to Lotus Lovers” says, “The lotus is in the middle of the sludge, but it is immaculate, does not follow the secular world, is pure and natural and does not show its charm.”

In our ground floor space, we use the form of lotus leaf as the inspiration for the floor pattern design, which is interrelated with the floor design of the guest room floor. On the surrounding screens, the concept of dewdrops on the lotus leaves was selected. The dewdrops on the lotus leaves, crystal clear and rocking with the wind, resemble rippling waves and pearls sprinkled on the emerald plate.

Every day in the life of a dewdrop is new and ever-changing, and so is the lotus leaf itself, which grows every day. The renowned Chinese poets such as Lu You and Wang Wei have famously created poems inspired by the dewdrops on the leaves. Here, we extracted the spirit of this beautiful and symbolic plant, abstracted its form and materialized it into artistic screens through innovative craftsmanship.

《园冶》云：“榭者，藉也。藉景而成者也。或水边，或花畔，制亦随态。”意为：榭是一种借助于周围景色成景的建筑，根据自然环境的不同有多种形式。古人把隐于花间的建筑也称为“榭”，后来则以水榭居多。中式传统亭榭常常坐落于花园池塘中，其中最常见的植物通常是荷花及荷叶。

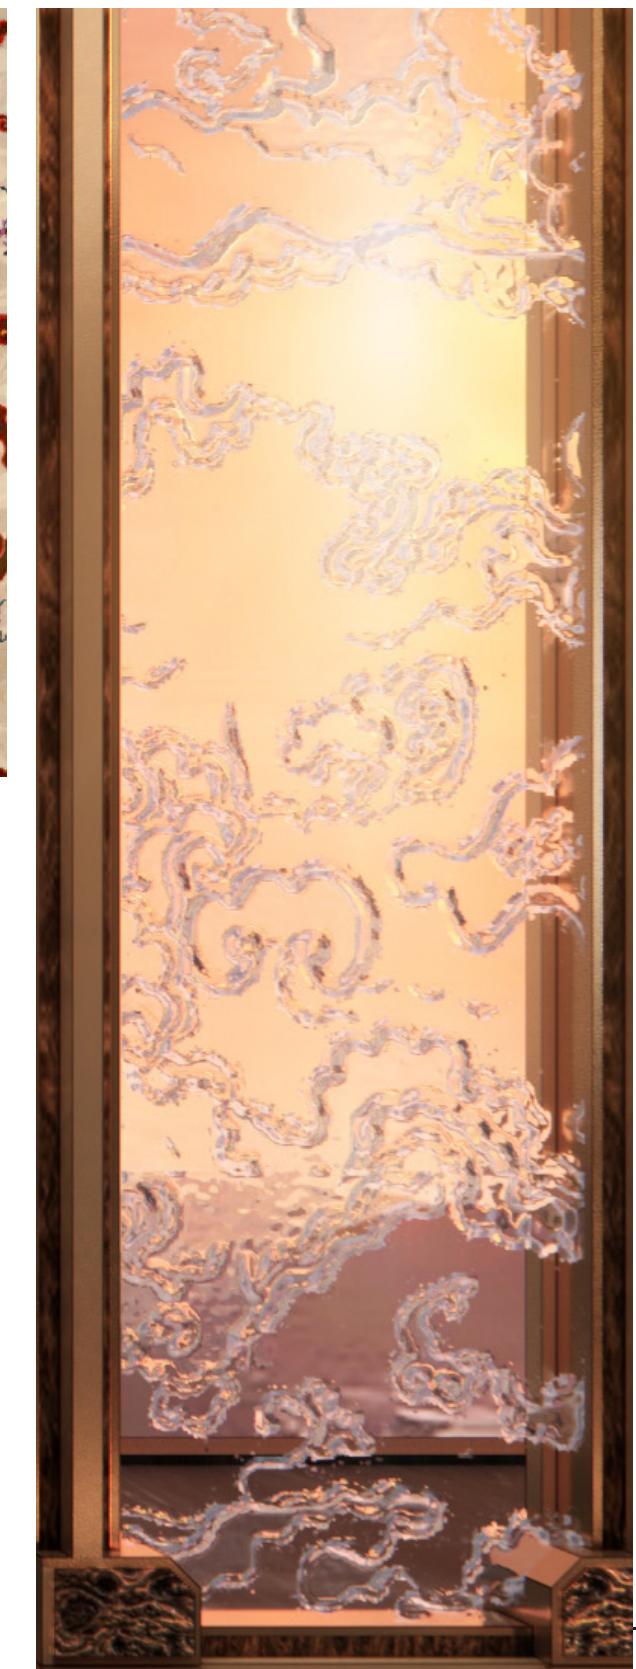

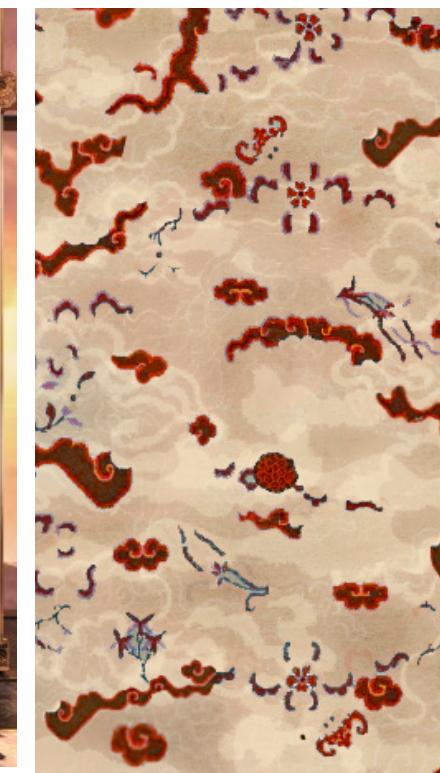

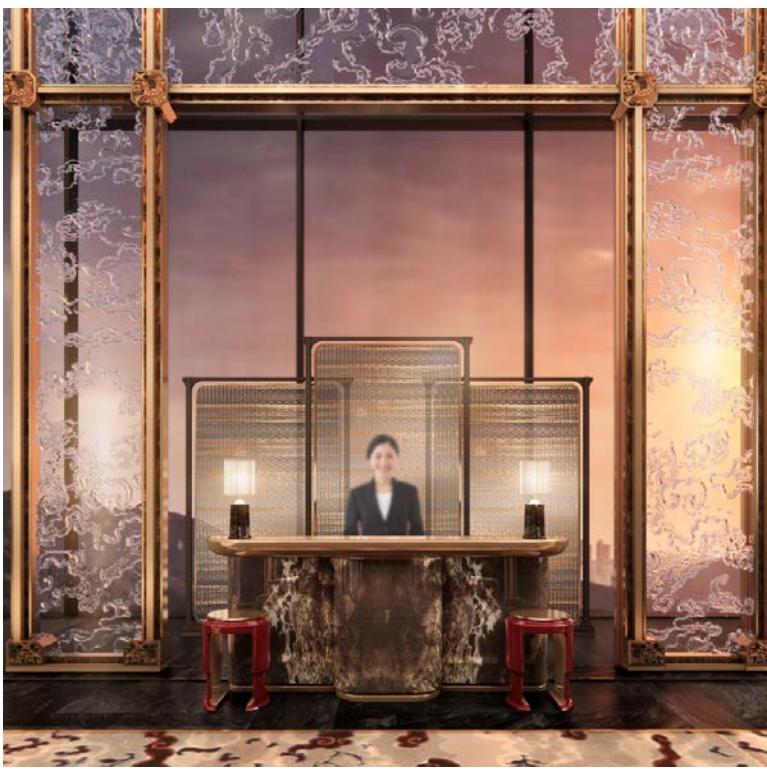

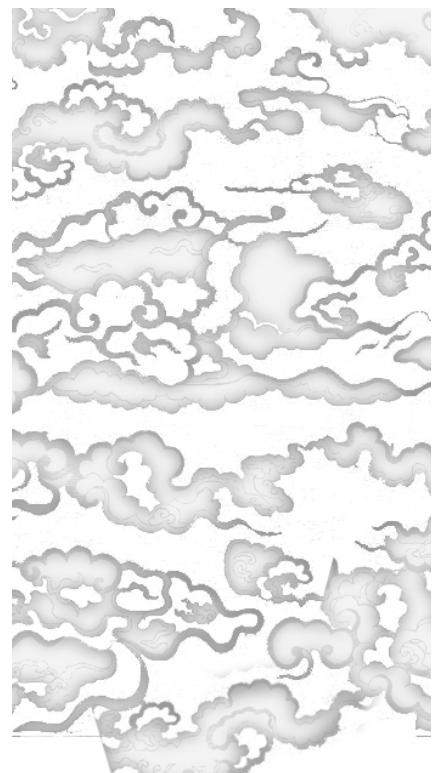

[The Garden] recorded: “the pavilion, also by the scenery and into the person also. either by waterfront, either by flowers, the system also follows the flow” Meaning: the pavilion is a kind of building with the help of the surrounding scenery into the scene, according to the different natural environment has a variety of forms. The ancients also called the building hidden among the flowers “pavilion”, and later the water pavilion is mostly. Traditional Chinese pavilions are often located in a garden pond, where the most common plants are usually lotus flowers and lotus leaves.

WATER PAVILIONS

祥云纹作为我国传统吉祥图案的代表,是具有独特代表性的中国文化符号,它不仅具有深厚的文化内涵和丰富复杂的象征意义,而且是最具生命力的艺术形式之一。“

渊源共生,和谐共融”的祥云就是代表好兆头的吉祥之云,就是对未来的美好祝愿,云气神奇美妙,发人遐想,其自然形态的变幻有超凡的魅力,云天相隔,令人寄思无限。

所以,在古人看来,云是吉祥和高升的象征,是圣天的造物。古代人们会把祥云的图案画在服饰、玉佩、雕塑上面,以此表示美好的祝愿。

As a representative of China's traditional lucky patterns, the auspicious cloud pattern is a unique representative Chinese cultural symbol, which not only has a deep cultural connotation and rich and complex symbolic meaning, but also is one of the most vital art forms.

"The auspicious clouds are the clouds of good fortune representing the good omen, the good wishes for the future, the clouds are magical and wonderful, sending people to reverie, the natural form of its transformation has extraordinary charm, the clouds and sky are separated, people send infinite thoughts.

Therefore, in the view of the ancients, clouds are a symbol of good luck and ascension, and are the creatures of the holy heaven. In ancient times, people would paint the patterns of auspicious clouds on their costumes, jade pendants and sculptures to express their good wishes.

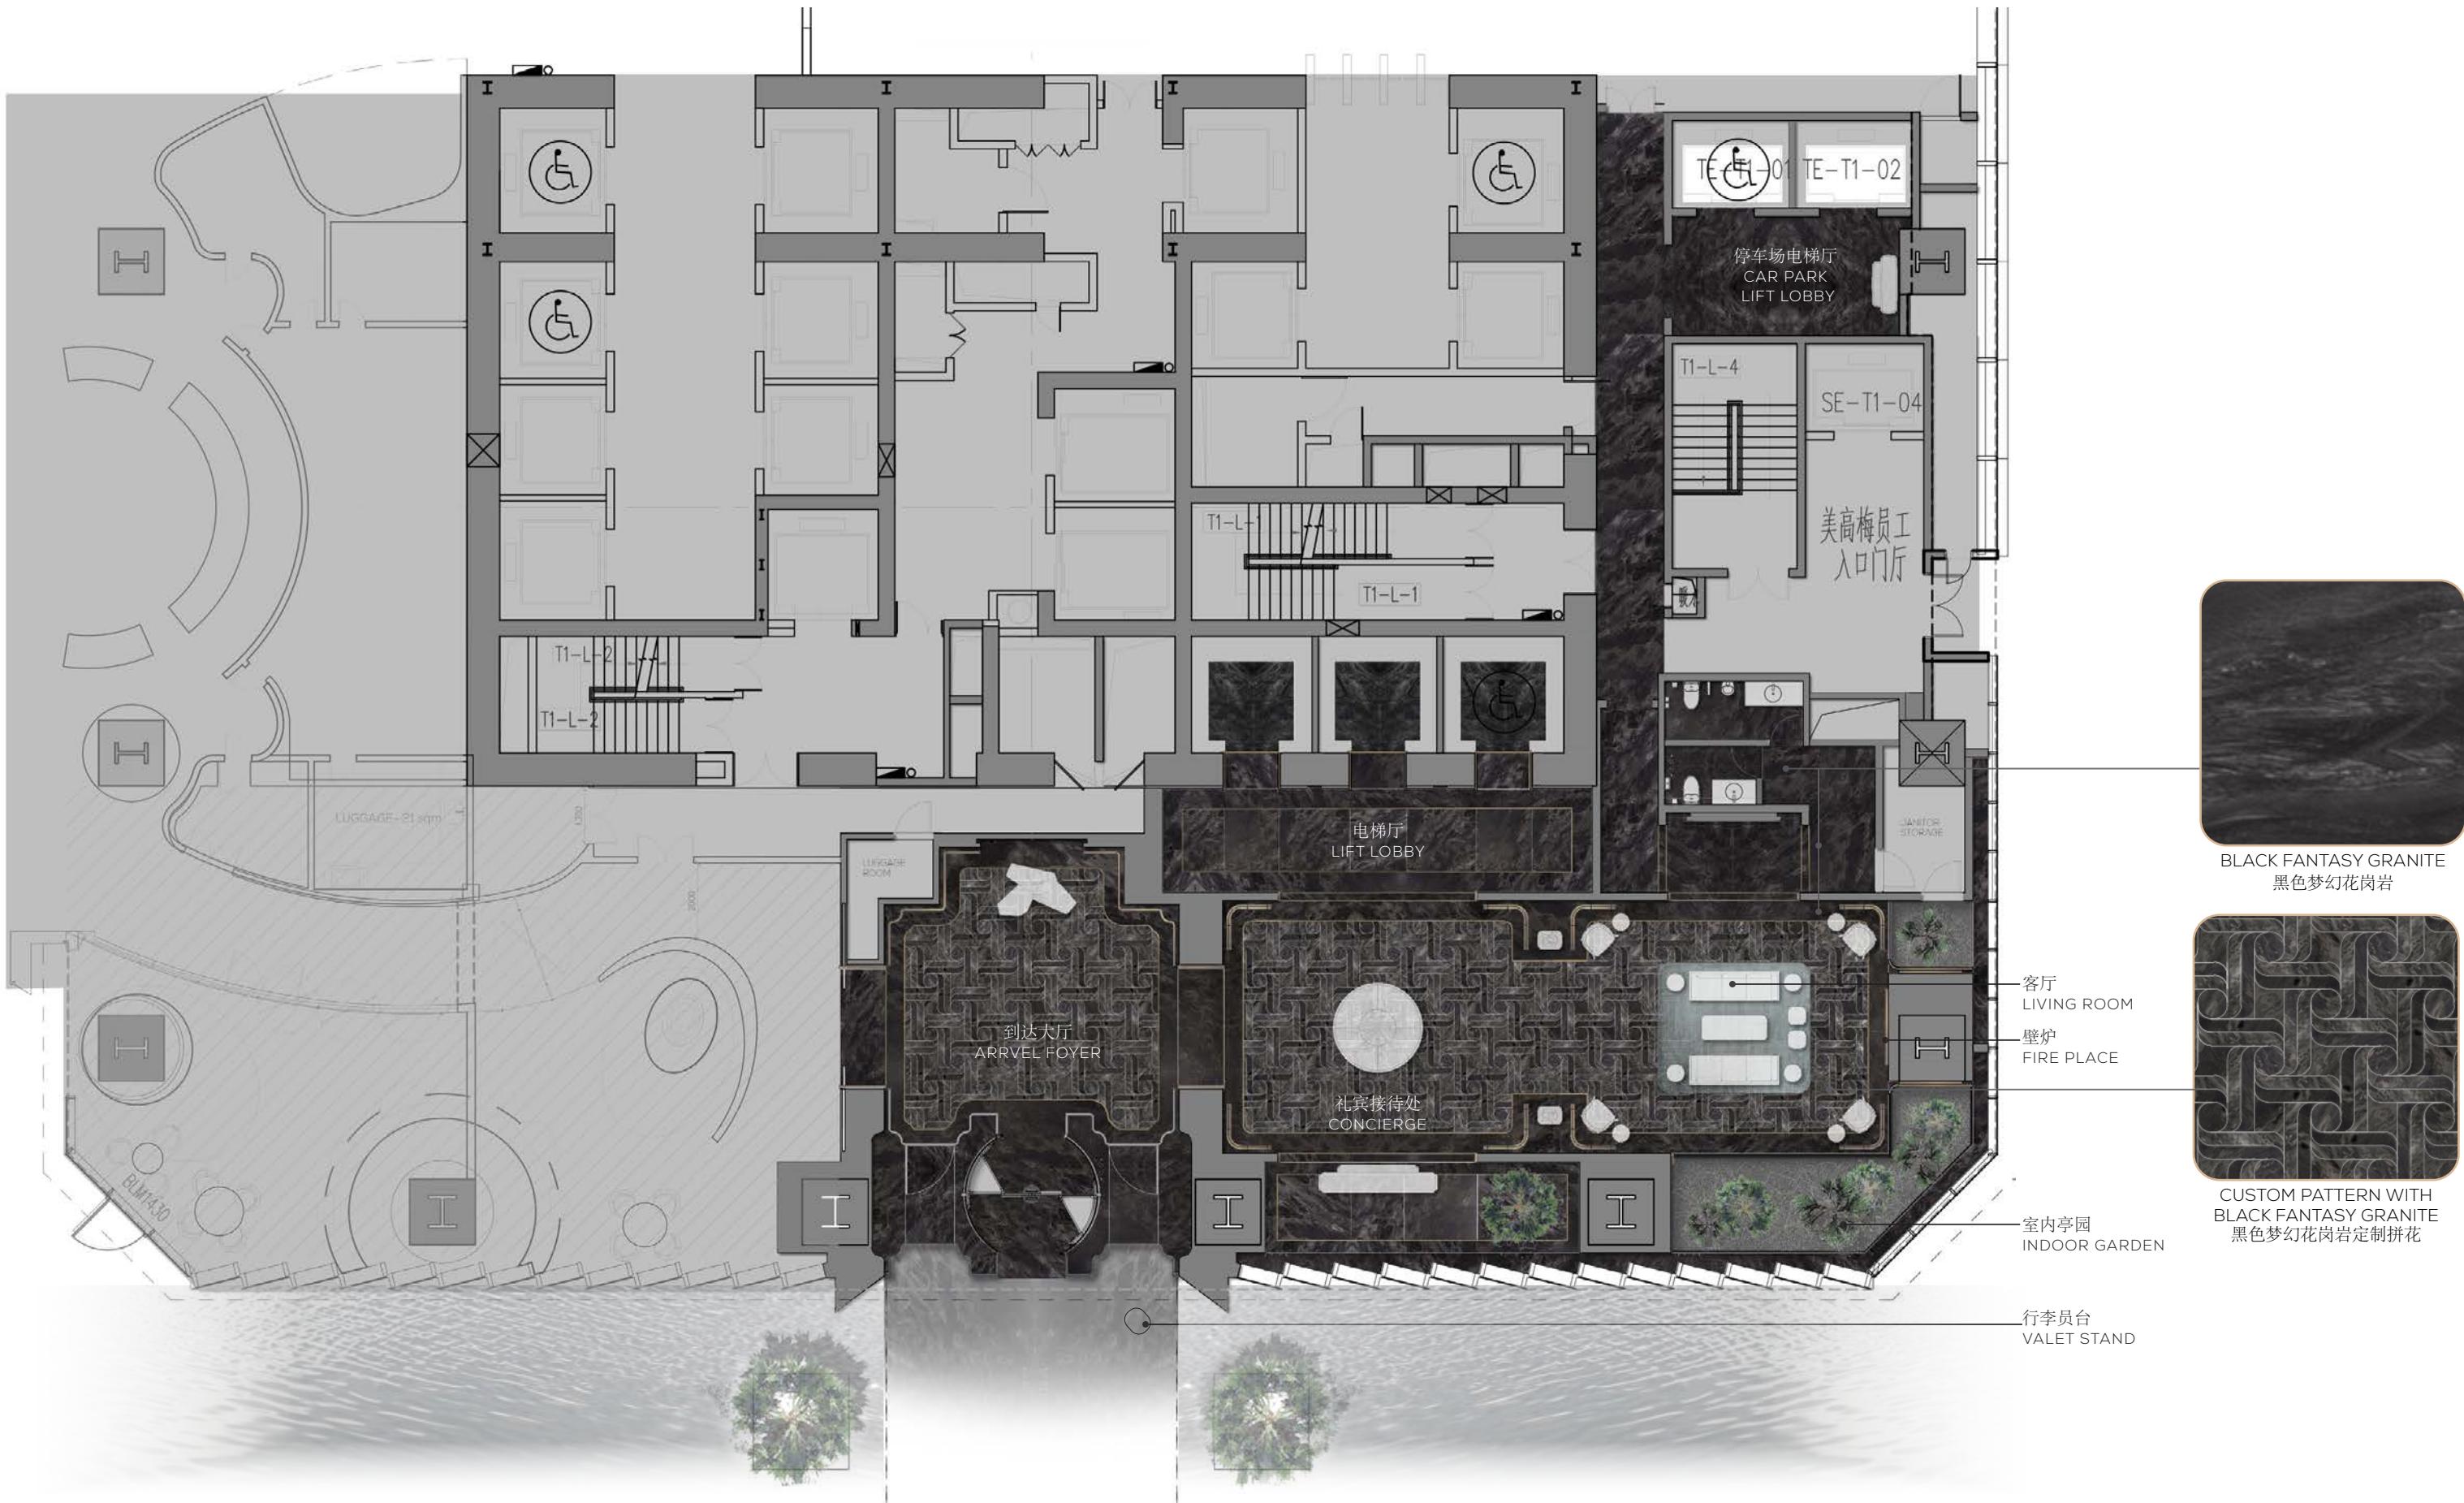

在行政走廊这里我们采用耐冬花的元素。耐冬花是青岛市花，它具有天生的芒姿丽质。它藐视风寒，傲霜斗雪，顶凌怒放，给严冬增添色彩，给万物带来春的希望，人们见到它，会受到坚强、刚正的高洁气质的熏陶和激励。

加之它花期长，又是在百花凋零的寒冬开放，而且恰处元旦、春节的隆重节日气氛之中，因而身份更加高贵。这些特点，铸成了耐冬花非比寻常的观赏价值。古往今来，它为世人所喜爱，为文人墨客所倾倒。

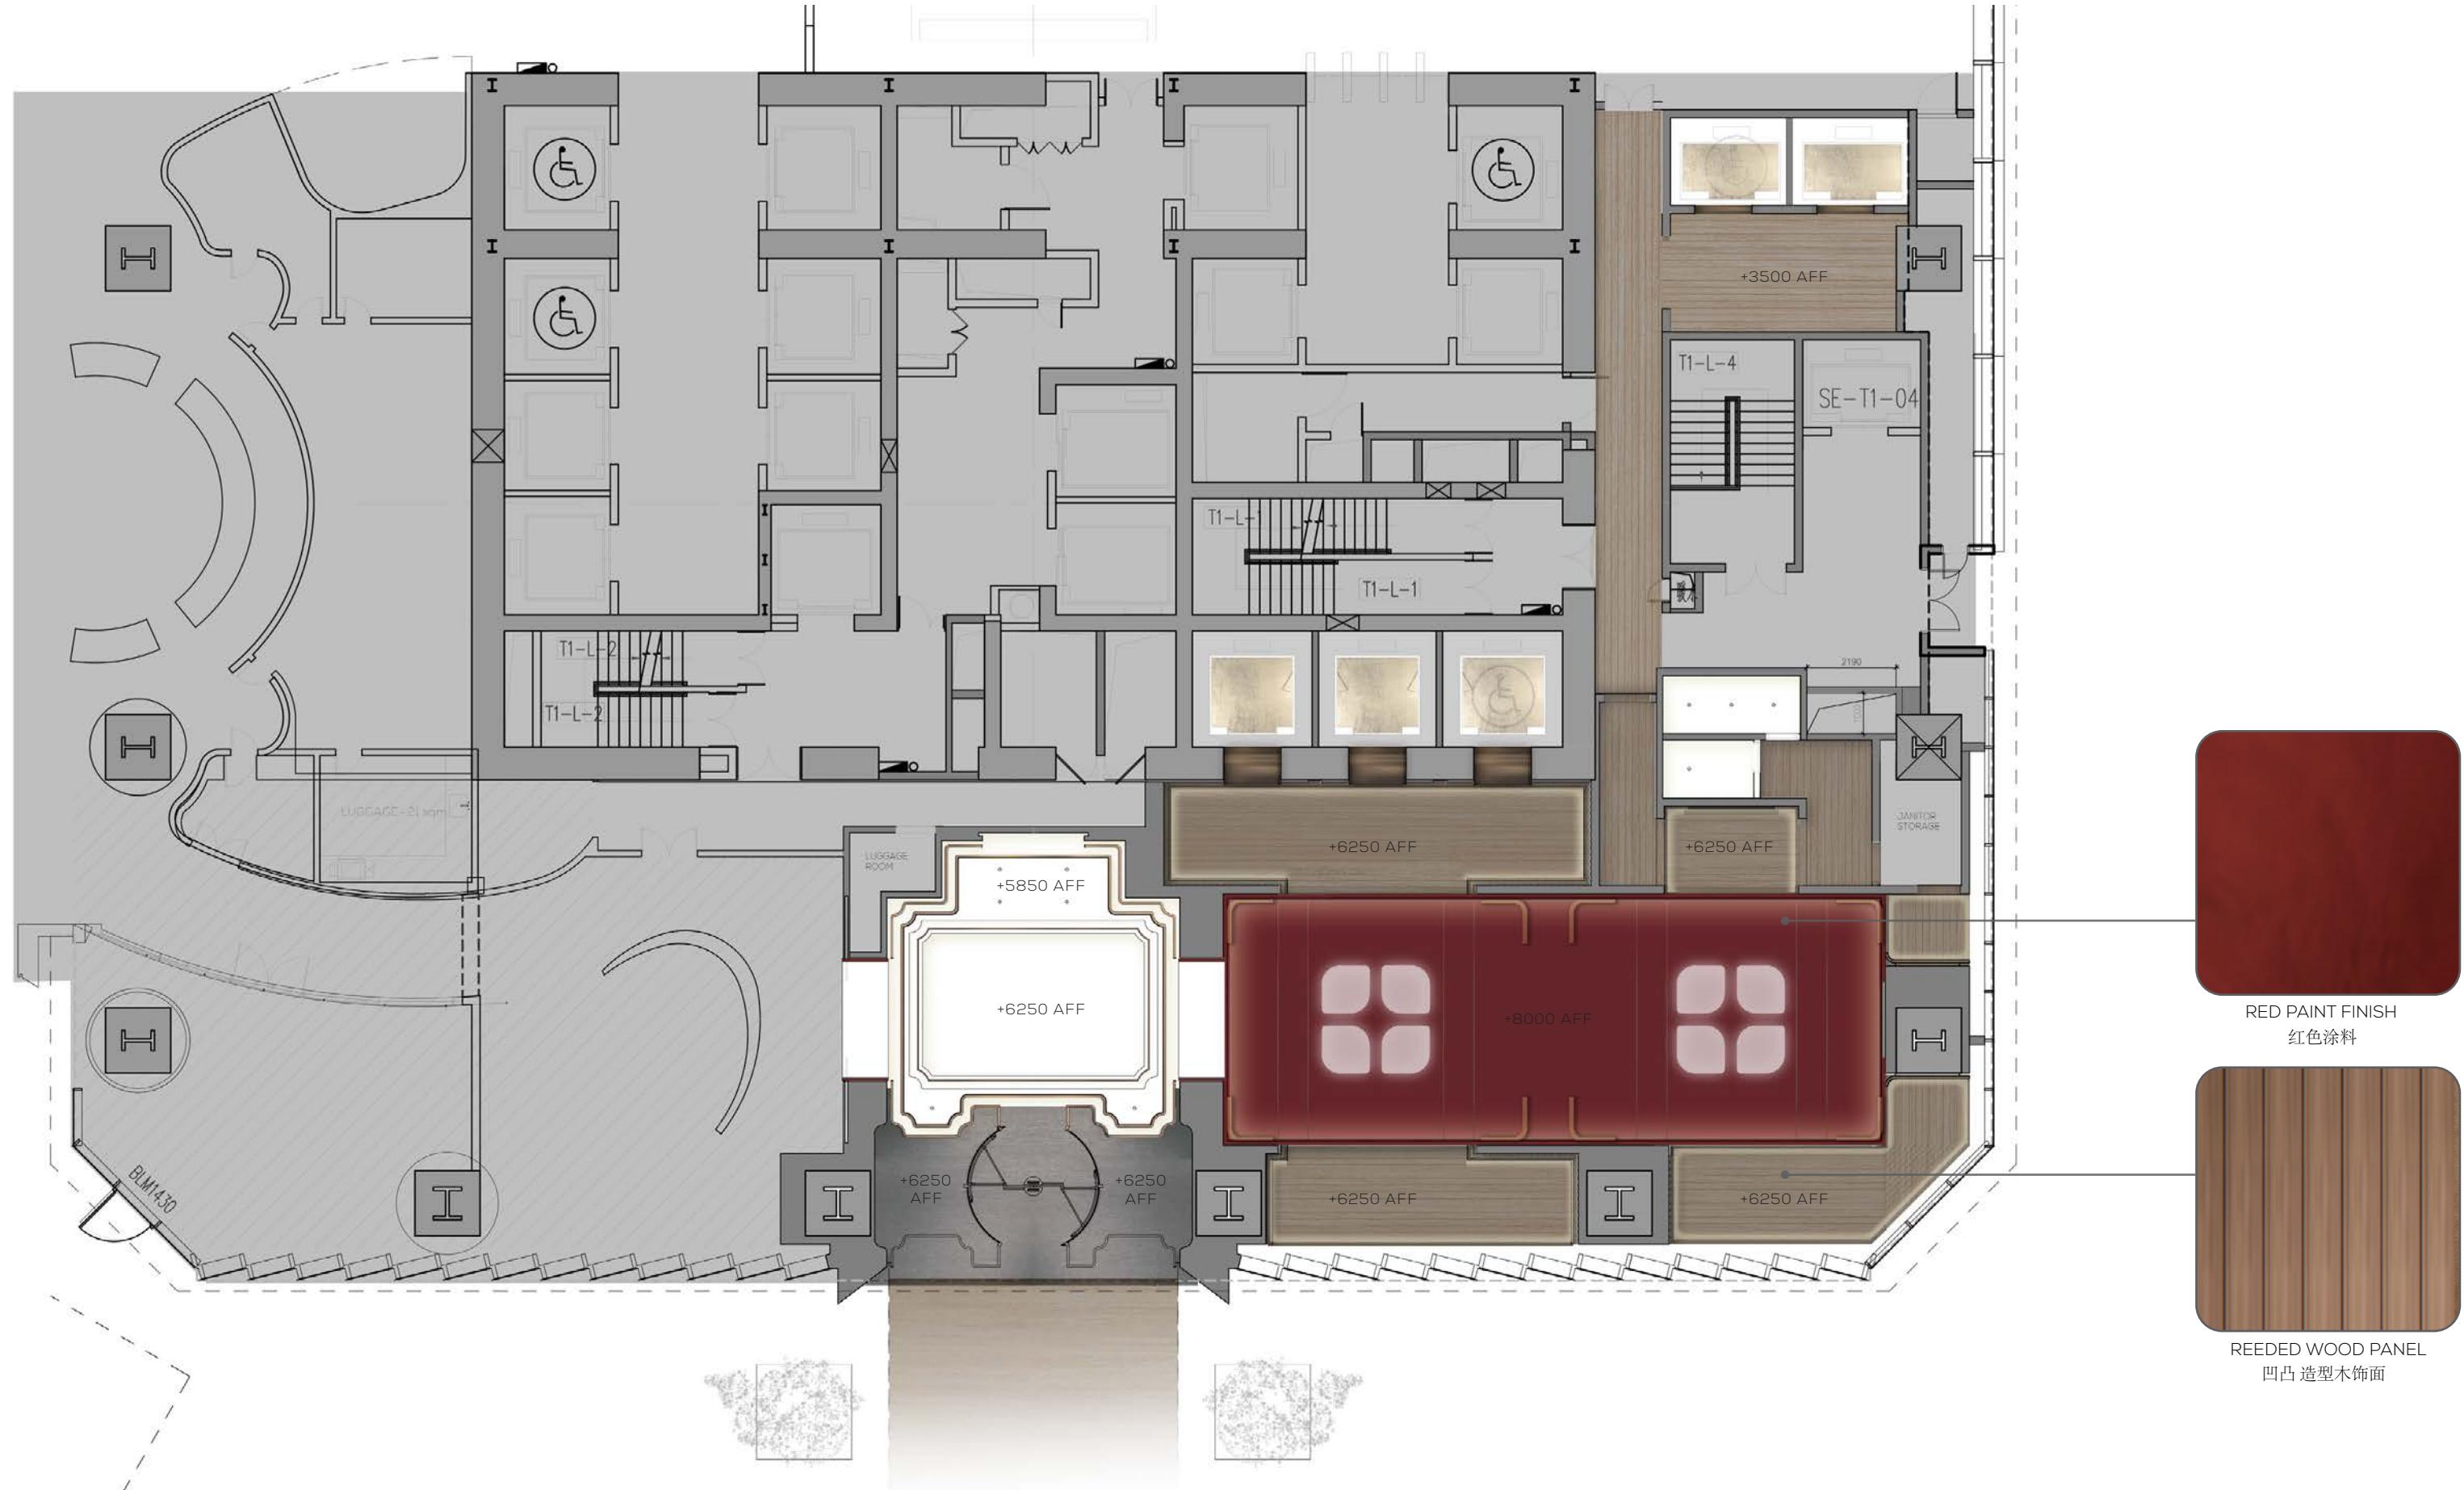

We're using the Qingdao city flower Camellia as an design element in executive lounge. It has a natural mansard beauty. It defies the wind and cold, proudly fights the snow, and blooms angrily, adding color to the harsh winter and bringing hope for spring to the world. One could not help but notice its inculcated sense of strength and inspired by the upright and noble temperament of this magnificent flower.

In addition to its long flowering period, Camellia blossoms in the midst of winter which is also around the time of the Spring Festival. Its perennial quality brings festivity that casts the unusual ornamental value of this winter flowers. Therefore, throughout the ages, it has been loved by the world and admired by the artist and scholar.
