PRODUCT

GLASS | KY GLASS

Shanghai Kangyu is a comprehensive architectural art decoration enterprise, after 18 years of development, formed five business system development platform -- architectural copper decoration, architectural glaze decoration, enamel art, door and window curtain wall manufacturing, religious system architectural decoration.

Shi Senbin, founder, studied at Shanghai Arts and Crafts School, majoring in arts and crafts, and was one of the first students to receive professional arts and crafts education in China. The pursuit of breakthroughs and extremes has been a part of Shi Senbin's creative career, and the essence of "creation source" is reflected in his artworks.

HARDWARE

HARDWARE | JUNG

Made in Germany, founded in 1912 by Electrician Albrecht Jung. The main focus was on the production of his patented invention: the pull switch with 1/8 rotation.

Today JUNG offers a large selection of devices and systems that impress with their modern technology, sophisticated design and exceptional range of functions. Including switches, outlets, dimmers, and observers, and systems for controlling features in home; from lighting, blind, or temperature control to wireless and KNX technologies, door communication, and multimedia control, etc.

LAMINATED FLOOR

SPC | LAMETT FLOORING

Project collaborating: N/A
 Accessible in North America: Yes

- SPC = Stone Plastic Composite
- Exceptionally realistic look and texture, some collections have a synchronous wood structure, could actually feel a knot or a wood grain.
- 70% limestone, mixed with about 25% PVC, different layers are compressed into a strong, thin plank. No adhesive is used. Very stable, with low VOC emission
- Easy click system, fast installation, watertight.
- Integrated IXPE sub-flooring, good acoustic performance,
- 100% waterproof and anti-slippery.
- Can be installed in large surfaces without profiles (up to 400 m²) does not require acclimatisation, suitable for every room,
- Anti-abrasive and scratch, suitable for hospitality and commercial project, even restaurant, swimming pool and gym.

SPECIAL FINISHES | ENAMEAL SHI

Enamel Shi Studio was founded in Shanghai in 2010. As one of the few cross-cultural enamel studios in the world, it is committed to expand the enamel craft in modern society and promoting the generation of new enamel art forms in its exploration. Under the leadership of founder Jun Shi, the studio actively connects the designers, handicraft, architecture, religious, multimedia and other fields. In the future, we will continue to explore and innovate in the social application of enamel art, and use enamel as a medium to build a research and create platform for interdisciplinary and cross-cultural collaborative work among artists, technologists, scientists and engineers.
