# OS&E | SHANGXIA

The SHANG XIA brand, established jointly by the world famous designer Jiang Qiong Er and France's Hermès Group, celebrates a contemporary fine living lifestyle.

"As above, as below", the name of SHANG XIA is simple but profound. It represents the oriental philosophy pursued by China in its long history, which links tradition and the present, Oriental and West, human and nature – a symmetrical, balanced beauty between seemingly diametric poles.

# OS&E | LIANGMU

A young Chinese brand that focuses on every day life. Trying to find meanings in life through the every day objects. They want to go beyond the object itself to re-experience the relationship between time and space.
